Then, click search to obtain the most relevant and precise results.

It's that simple!

### Research and Extract Intelligence from Research Documents.

With iCommNet® KC Research™, you can use linguistic meanings and knowledge to precisely search from multiple sources. Researching for intelligence hidden in vast amounts of electronic contents requires powerful search engine that enables linguistic expression of similar meaning of desired intelligence. Additionally, the search engine must also extract intelligence from electronic contents captured from multiple sources. KC Research is ideal for researching intelligence in multiple domains from multiple sources.

Research domains are, for example:

- eDiscovery
- Business Intelligence
- Academic Research
- Competitive Analysis
- Military Intelligence Capture
- Intelligence Exploitation

Electronic content sources are, for example:

- Web Pages
- RSS Articles
- Electronic Documents
- Remote Documents
